MILLIONS

Have Been Spent on the Canal

Which is Now Offered to the United States.

Claim Made That the Isthmian Canal Would Cost \$58,000,000 Less When Finished Than Nicaraguan Route.

Special by wire to Times-Democrat. Washington, Oct. 18.—M. M. Huntin, president of the Pan-American Canal company and Admiral Walker, of the Isthmian canal commission are holding daily conference and Huntin states that the canal can be sold to the United States without a single reservation or complication as easily as a \$50 horse. The canal is two-fifths completed and would cost finished \$58,000,000 less than the Nicaraguan route.

DEMOCRAT

Appointed to a Federal Position.

Roosevelt Recognizes Merit in a Consul

Who Has Served for Several Years in a Position Tendered Him by Grover Cleveland When President.

Special by wire to Times-Democrat. Washington, Oct. 18.—President Roosevelt today gave another life long Democrat, a federal position in appointing George Sawyer to take charge of the U. S. Consul at Antigua, West Indies. Sawyer has been consul in Glanachau, Germany, since his appointment to that post by President Cleveland. He claims New York as his home and is given his new place for his efficiency at Glanachau.

BLUFFTON

Has Certainly Got the Real Thing.

Kerr, Spellacy & Jones Strike a Good One

South of the Town That is Flowing Like an Old Timer and the New Field Does Well.

Mayor Amstutz, of Bluffton, was a visitor in Lima today, and he was bearing when approached on the question of the oil situation in that section. In reply to a request for a statement of facts he stated that there was some real excitement in that locality and while there might have been some slight exaggeration as to the real situation, there was a nice big boom and the wells were coming in at a rate to give it a healthy color. "The latest development," said mayor Amstutz, "is the No. 1 on the Jacob Lantz, south of Bluffton, which was brought in yesterday by Kerr, Spellacy & Jones, and it is a gusher compared to the sand has been yielding in other sections. Just what it will do when the pumps are put to work cannot be definitely stated, as the well up to today was still flowing. "The Lusher No. 1, which was drilled by the National Oil & Gas Company of Salamanca, N. Y., in the new north-west field, just across the line in Putnam county, was shot Wednesday and is now pumping 50 barrels. Five new locations have been made in this field and the drill will be pushed as rapidly as possible. "Leases are in demand, but they are held for a good stiff price, \$500 being paid for a small acreage in territory that is yet to be tested. During the past week or two, eastern capitalists have been on the grounds in numbers and there is no doubt but that the land in the vicinity of Bluffton is to be thoroughly worked in the effort to open on all sides this new and encouraging field."

GRAIN MARKET.

Special by wire to Times-Democrat. Chicago, Oct. 18.—Closing December wheat 70 1/4; corn 56 1/4; oats 35 1/4; Jan. Pork 15.22.

NINTH

Infantry Avenges Its Comrades.

A Fierce Fight

Between Americans and Bolomen

In Which the Latter were Routed With Severe Losses.

A Detachment of Americans Saved from Annihilation by the Timely Appearance of Fighting Ninth.

Special by wire to Times-Democrat. Manila, Oct. 18.—The Ninth infantry has avenged the massacre of nearly a half hundred of their comrades at Hulangig. A detachment of 46 men of the Ninth was surrounded by 900 Bolomen near Gandara, on Bauighen river, island of Samar. Ten men had fallen dead and six others of the little company were wounded, when a strong detachment of the Ninth came on the scene. After a fierce fight the rebels were routed, leaving 100 dead on the field. Near the Capitol of Samar. Manila, Oct. 18.—The scene of today's ninth infantry fight is twenty miles north of Cuthalongan, the capital of Samar. General Smith has left Cuthalongan for the scene of the battle. He took two gunboats and a strong force of troops with him.

HOT SHOT

Fired at the President by a Paper

That Takes Exception to His New Departure.

His Dining With a Negro in the White House Not Altogether to the Liking of Some of the Southerners.

Special by wire to Times-Democrat. Nashville, Tenn., Oct. 18.—The Nashville Daily News under caption "A Breuco Busting President," says in part of President Roosevelt dining with Booker T. Washington: "His inviting this negro to dine at the White House is a most radical departure and one which goes far beyond anything done by his predecessors in that direction. It is useless to affront the feeling which, whether rightly or wrongly is immaterial, is deep seated and permanent in the hearts of a very large section of the American people."

CRACKED

The Safe in Bank at Berlin Heights

But were Frightened Away Before They Got into the Money.

Special by wire to Times-Democrat. Norwalk, Ohio, Oct. 18.—Safe crackers at Berlin Heights, blew the Berlin Heights Banking Co.'s safe to atoms last night, but were scared away before they got any money, by a posse of citizens with shot guns. There were six in the robber gang.

BURGLARY

Committed on East Second Street Last Night.

Some time last night a burglar gained an entrance to the home of Joseph Forche, on east Second street, by tearing a screen from a window. The only property that has been missed is a child's bank, containing about \$5 cents in small change. The police have been notified.

WEYLER

Didn't Get Rid of the Reconcentrados

At Any Greater Rate Than Gen. Lord Kitchener.

Two Thousand Four Hundred and Eleven Persons Died in South African Concentration Camp Last Month.

Special by wire to Times-Democrat. London, Oct. 18.—The September reports of the concentration camps in South Africa were made public today and show the inmates to be as follows: Men 17,070, women 38,022, children 54,326. The deaths during the month were 119 men, 328 women and 1,964 children. At this rate 25 per cent of the adults in captivity will be dead in a year and 56 per cent of the children.

WRECK

Brought Death to Three.

All Trainmen

On the Two Freights Which Collided.

Frightful Casualty on the D. G. H. & M. in a Fog This Morning.

The Track is Blocked from the Awful Effects of the Frightful Tragedy and Traffic is Suspended.

Special by wire to Times-Democrat. DETROIT, OCT. 18.—IN A HEAD ON FREIGHT WRECK ON THE DETROIT, GRAND HAVEN AND MILWAUKEE ROAD IN A FOG THIS MORNING, ENGINEER MOFFATT, FIREMAN LUCE AND BRAKEMAN NUBRENBURG, ALL OF DETROIT, WERE CRUSHED TO DEATH. THE WRECK WAS FEARFUL AND WILL BLOCK THE TRACK ALL DAY.

DANGER

Of an Epidemic of Diphtheria.

Number of Cases in Different Parts of the City

Which Should Call the Board of Health and the Sanitary Policemen to the Rescue.

"We are going to have an epidemic of diphtheria, if we haven't it already," remarked a prominent citizen today, "and in spite of the fact that the physicians say there is no cause for alarm, there are many cases in the city that demand a more rigid quarantine."

"The board of health could take measures to relieve the present difficulty in more ways than one, and one particular oversight, has been the failure to flush the sewers. This should be attended to at once. Furthermore there is a flagrant oversight on the part of the sanitary policeman to compel a prompt removal of garbage and filth, which has been allowed to accumulate in alleys and back yards, all of which has a tendency to aggravate the present unhealthy condition."

"Findlay is just now fighting, both small pox and diphtheria and in spite of everything that is being done, the disease, although in a mild form, is spreading. Lima has no small pox to contend with, but the number of diphtheria cases is growing larger every day and yet the proper authorities do not seem disposed to heed the call for prompt measures of interference."

MEN

Who Served Under Schley

In the Battle

Which Made the Admiral Famous,

Testify to Efficiency of That Brave Officer When Under Fire.

They Assert That They Did Their Share of the Fighting During the Conflict With the Spaniards.

Special by wire to Times-Democrat. Washington, Oct. 18.—In the Schley inquiry this morning, Commander Nicholson, who was navigator of the Oregon at Santiago, offered the statement that during the running fight of July 3, the Viscaya started towards the Brooklyn. She kept this up for a time and then made for the shore. Nicholson added however that he saw no attempt to ram the Brooklyn.

EIGHT WITNESSES

Were Today Examined Before the Navy Court of Inquiry.

Washington, Oct. 18.—The presentation of Admiral Schley's side of the controversy was continued before the Schley court of inquiry, eight witnesses being examined. Of these five were ensigns, and the entire eight had served on board the Brooklyn with Admiral (then Commander) Schley. When Lieutenant Charles Webster had concluded his testimony, he was followed by Lieutenant Commander T. D. Griffin, who had charge of the powder division on the Brooklyn during the fight off Santiago. Lieutenant Griffin was succeeded by Ensigns C. A. Abele, John Haligan, Jr., Ulysses S. Macy, James M. Hand, Ralph Marble and Medical Director Paul Fitzsimmons, who was surgeon of the flying squadron. While Ensign Haligan was on the stand Mr. Rayner sought to bring out information as to the foreign ships in sight at the beginning of the battle of July 3, but Judge Advocate Lemly objected on ground that the question was intended to show the absence of the New York, and the interrogatory was withdrawn. Ensign Marble stated that he had heard Captain Sigbee tell Commodore Schley when he came aboard the Brooklyn on May 26, that the Spaniards were not at Santiago.

Ensign Marble said further that when the Spanish ships came out of the harbor they showed a disposition to ram the Brooklyn. He did not see the Texas while the Brooklyn was turning because of the smoke. Dr. Fitzsimmons observed the engagement from the gun deck of the Brooklyn. When the first of the Spanish ships came out of the harbor it appeared to stand still. He saw no more of the Spanish ships until the Brooklyn had completed her turn, when all of the vessels became visible. He could see but one of the American vessels. He remembered this incident very distinctly because it seemed to him that the Brooklyn was fighting the whole Spanish squadron alone. Witness thought the Brooklyn kept the Colon from getting away. The witnesses, one and all, testified to Admiral Schley's bravery.

There had been some inquiry as to Admiral Schley's standing in the navy since he was placed on the retired list because of age, but it appears that all question on this point has been practically settled by the department having assigned the admiral to "active duty" at the court of inquiry while it is in progress. This action was taken to prevent any question as to the effect the admiral's retirement would have on the action of the court.

SNOW STORM

Visited Central New York This Morning.

Special by wire to Times-Democrat. Geneva, N. Y., Oct. 18.—From two to four inches of snow fell in central New York this morning.

LIVE STOCK MARKET.

Chicago, Oct. 18.—Cattle 3,000, steady; hogs 23,000, 5 and 10 cents lower; sheep 18,000, steady. East Liberty—Cattle light, steady; hogs fair, active; sheep fair, steady.

SHOOTERS

Will be Prosecuted by the Family

Of the Two Men Who were Injured.

The Evansville People were a Bit Too Handy With Their Guns and Trouble is Brewing for Them.

Special by wire to Times-Democrat. Nashville, Tenn., Oct. 18.—Wm. Duan, who was wounded at Evansville, Ind., with the body of his brother-in-law, Henry McCarroll, who was killed there, both being taken for bank robbers arrived here this morning. Both men bore excellent reputations and were on their way to St. Louis to work when shot. The family will take the matter up and prosecute the shooters.

MILLER

Returned to Sandusky and Landed in Jail.

Special by wire to Times-Democrat. Sandusky, Oct. 18.—Ex-City Clerk, A. W. Miller, who is in the custody of officers, who brought him from Havana, is safely lodged here in the city prison today. He says he can explain his \$100,000 shortage satisfactorily.

CAGE FELL

And Four Men Terribly Injured.

Water Works Tunnel Has Been a Trap

In Which Six Men Have Been Killed by Explosions—Now Comes This Accident and May Prove Fatal.

Special by wire to Times-Democrat. Cincinnati, Oct. 18.—At the water works tunnel shaft this morning, while four men were being hauled to the surface, the pin which holds the "drum" to the shaft, broke and hurled the cage and its occupants to the bottom, a distance of 160 feet. John Hanley, aged 35, was fatally hurt; Jacob C. Coleman, aged 38, received concussion of the brain and internal injuries; James Connor, aged 35, had both legs broken and B. F. Squires, aged 35, has one broken leg. Six men have been killed in the tunnel by explosions since the work commenced.

OFFICERS

Elected for Making a Resort of Indian Lake.

The National Fraternal Encampment and Park Association, organized for the purpose of acquiring possession of Indian Lake island, consisting of about 115 acres in the Lewiston reservoir, has held a meeting and elected the following officers: President, Allen Edwards, of McGuffey; Vice President, Frank Bowman, of Jackson Center; Treasurer, John Boose, of Lima; Secretary, X. H. Hollar, of Lima. The officers named and J. N. Covault, of Findlay make up the directorate. It is the intention of the company to erect a fine hotel and convert the place into a resort, which the value of its mineral springs, will greatly enhance.

THE MECCA

Has Been Opened to the Public by Chas. Dunlavy.

The popular restaurant cafe which is situated in the southeast corner of the public square and which under the name the health office, was managed and owned for a number of years by the late Henry Zimmerman, has been reopened to the public by Charles Dunlavy, who is now proprietor and manager of the place. Dunlavy has christened the place the Mecca and under his management it is sure to continue in popularity. Both departments of the place have been thoroughly overhauled and renovated and presents a neat appearance.

SAD

News from Over the State

Taken to Mark

Dismal Prospect Shown by Lieutenants

Who Have the Campaign of Nash in Charge in the Various Counties.

Unless a Great Change Occurs Within the Next Fortnight Colonel Kilbourne Will be Elected Governor.

Cleveland, Oct. 18.—State senators and other prominent Republican workers in state politics are continually dropping in on Senator Hanna and keeping him informed of the state situation.

In view of these visits, it is a noticeable thing that the assurances of an overwhelmingly Republican victory are not being passed out as they were for a day or so after the visit of State Senator Patterson the first of last week.

The fact is that the Republican leaders are bringing defeat tidings into the office of their chief, Senator Hanna.

This, as was stated from the Perry-Payne office yesterday, is because of the local issues all over the state, and principally in Cuyahoga, Hamilton and Franklin counties, which, to all appearances, are completely swallowing up the state issues.

When it is remembered that these local issues are all being fought upon by the Democrats and allied as much as possible by the Republicans, the reason for fear in the Republican ranks goes without saying.

In Cuyahoga county the tax issue as presented by Mayor Johnson has several days ago wrung the admission from Republican leaders that the result in the county was extremely doubtful.

The seriousness of the condition in Cuyahoga county from a Republican standpoint was freely admitted by State Senator Patterson when he was last here.

Two weeks ago the statement was made from Senator Hanna's office that Hamilton county would elect the entire Republican legislative ticket, and roll up a handsome majority for Nash. But now the situation has changed, and fear over the result in Hamilton was expressed yesterday.

This is because the Republican leaders have been unable to do anything with the strong anti-Nash element in this county, and because this sentiment seems to be growing stronger every day and cannot help but have its effect on the legislative ticket.

In Franklin county the trouble to the Republicans hinges about the last administration of the party in the city of Columbus. In spite of every effort, the bad feeling arising from Swartz's administration is having its effect on the Republican campaign in Franklin county.

With local issues being brought prominently to the front at a time when a senator and the redistricting of the state is at stake, the Republican leaders are now looking with almost desperate hope to the speaking campaign.

The hope is that the great array of speakers which will be sent to every corner of the state will have the effect of causing the local issues to be buried for the time being.

HIGH SCHOOL

Reception at Young Men's Christian Association Tonight.

The High school students will give a reception to the Ada foot ball team in the Y. M. C. A. tonight, from 7 to 9. All the high school boys and girls are invited.

The mechanical drawing class was very large last evening. More young men are interested in this work than ever before. The second division of the class meets tonight at 7:30. Any young man interested in this kind of work should see the secretary.

OIL

A Dead Weight in California

Is the Word

Brought Back by a Toledo Operator.

He Also Gives an Expert Opinion of the Beaumont Field.

What Portage Has Done Since Billie Jones, the "Lima Capitalist," Pitched His Tent in This City.

Mr. W. I. Shirley returned from Los Angeles, Cal., yesterday looking much younger than when he left here a year ago, say the Toledo Times in an interview with that gentleman. He has enjoyed the Pacific breezes and caught huge black sea fish, some of which stood endwise higher than himself and heavier also. His business went on in this field just the same and with abundant success. Asked as to the condition of the oil business in California he said: "The oil business is pretty slow there. There is practically no new work being done. I myself have done nothing all summer but clean out wells so as to have them in shape when there is a market for the oil."

"Why, is it a fact that there is no market for it at all?" asked The Times again.

"Oh, there is a chance, once in a while, to sell a little, but there is no regular market. You may sell some to the Traction company and other local consumers who use 20 barrels occasionally. But the operators are just waiting for something to turn up. Some are building tankage and storing their product while others simply shut their wells down and do nothing."

"Is the Standard not in there?"

"Yes, the Standard is building tank-

age in several localities but most at Bakersfield. There is some talk of building a pipe line to the coast, but as yet it is only talk."

"What is the gravity of the oil at Los Angeles?"

"It is about 14 degrees."

"Well can they pump that stuff up through two-inch tubing?"

"Oh, yes it pumps nicely though in some cases at Bakersfield the wells yield as much as 400 barrels a day and in these they use three-inch tubing. Nearly all the wells yield sand with oil. It is so fine and thoroughly saturated or coated with the oil that it moves up in the tubing with apparent ease. Sometimes if the well stops the sand will settle in the tubing above the valves necessitating the drawing of the tubing. And this is an awful job. I saw one well that had been stopped for a short time full to the top of the tubing 1,000 feet. Of course it was impossible to draw the rods and all had to come together. When a joint of tubing was taken off it sometimes required half an hour of pounding and shaking of the joint to get the sand loose and the rod out. In this way the entire string had to be pulled."

"Then the business throughout the entire state is practically dead?"

"Yes, sir, it is, and will remain so until a market is created for the oil. Up to last April I had my production sold at \$1.68 a barrel. Since then I have sold but little and have done no drilling. As a consequence I have made no money there since April, as I told you."

"What is your opinion of the Beaumont field?"

"I do not believe they would have a flowing well there in 24 hours if all the wells were turned loose at one time. I see they have cleaned out the old Guffey well and that it flowed again. But the question arises would it have done so had all the others been permitted to flow? I rather think not. As long as they keep the wells bottled up of course the one that is opened independently will flow. That's easy. But turn the stops on the others and you will quickly find a different state of things. No I have no fears of that country."

"Well, in your absence from this place you seem to have been doing a good deal of business here. What do

you think of the outlook for prices here?"

"I can see no reason why we should not soon have another advance. I do not see that the production in this country is increasing much with all the drilling that is being done."

"Will you remain here during the winter?"

"No, I intend to return to California in perhaps two months. I want to see what is going on and shape up things for future action."

A Growing Village.

The village of Portage, Wood county O., has grown considerably during the past year. Dr. Knight seems to have a mania for the erection of houses to rent and they are neat and comfortable structures. Several nice brick buildings adorn the town and another is in course of construction. The old hotel has been abandoned and will either be resurrected in the shape of a new structure entirely or by the process of a thorough overhauling. No building in Wood county could relate more big stories regarding the growth and development of the oil business than this. It used to be headquarters for nearly all of the forerunners or leasers in the county. That was before the drill began to get in its work.

Clint Brauley and his handsome wife had headquarters there and Miss Jane Stone, the eminent lady operator, also had apartments permanently. Then there was "Billy" Jones, A. H. Low, A. J. Mercer, "Shorty" Conrath and a dozen others whose names cannot be recalled at this instant, headed for Portage when night drew on. It was a lively and interesting occasion. Somehow Bowling Green stole away the reputation that Portage enjoyed and retained it. The Portage hostility changed hands, Tom Carr selling out, and thereafter it was not so good. Mrs. Carr knew how to treat her guest and made it a home to which they liked to return.

The Brauleys are now located at Seattle, Low is in California. Mercer is in the eastern fields and Texas and Billy Jones is a rising capitalist at Lima, O. How the world moves away.

West Virginia Gusher.

The Southern Oil company has a new well, its No. 2, Taylor farm on Yellow creek, Centre district, Calhoun county, that made 350 barrels first 24 hours.

HEART DISEASE.

Some Facts Regarding the Rapid Increase of Heart Trouble.

Heart troubles, at least among the Americans, are certainly increasing and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Real organic disease is incurable, but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and Pneumogastric.

In another way, also the heart is affected by the form of poor digestion, which causes gas and fermentation from half digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action, hence arises palpitation and short breath.

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.

This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets which may be found at most drug stores, and which contain valuable, harmless digestive elements in a pleasant convenient form.

It is safe to say that the regular persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble except cancer of the stomach.

INITIAL

Event of Dr. Koehn's Series of Lectures

Was Delivered in Findlay Tuesday Evening.

Press of That City Profuse in Its Praise of the Distinguished Orator—Will Speak in This City Soon.

The Rev. Dr. John B. Koehn, the distinguished lecturer on "Christian Evidences," who has been engaged to deliver a series of nine lectures in the Market street Presbyterian church, this city, beginning October 22, began a series of lectures at Findlay, night before last, and concerning the initial event, the Findlay Republican says: "The first of the Nazarine lectures was given at the First Congregational church last night to a large audience. The topic of the evening's discourse was, 'The Preparation for Christianity by Judaism,' and the old story of the righteousness of the Jewish people was portrayed in words of eloquence by Rev. Dr. John Koehn."

"No more pleasing speaker than Dr. Koehn has ever appeared before a Findlay audience. His diction is easy, translucent and forcible, while his eloquence holds his hearers spellbound. Easily the peer of Fingersoll in graceful delivery and powerful eloquence, he defends the faith with greater logic and more telling results than that orator attacked it. Dr. Koehn has dedicated his life to the work of bringing the Christian religion to the threshold of the life of the busy American of today. He unfolds his researches of years in a few interesting lectures, free of admittance and of intense interest and profit to the hearer."

He stated explicitly that he did not assume the role of an evangelist, that he was simply a lecturer, and stated with the general assumption that in all history there is a God. He compared the Greek, Roman and Jewish races; the one excelling in art, the other in business and the third in things spiritual; one centered about the academy the other about the throne and the third the altar; one sung of a golden age in the past, the other build golden cities, the third dreamed of a golden city in the future; one may be personified by Socrates, the other by Caesar, and the third by Moses. It was most fitting that this spiritual righteous people should have been selected for the great mission of the coming of the Messiah.

The speaker characterized the Jews as a race through thousands of years as the most pure, the cleanest, and the noblest of all peoples. They retain their characteristics today, while the great peoples of the past have been swallowed in oblivion. Today one finds no Jews in jails or begging on the streets, nor in the almshouses."

Many headache remedies are considered dangerous. Bromo-Pepsin is so absolutely harmless and withal so wonderfully efficacious that physicians prescribe it for headache, indigestion, nausea, insomnia. It has no equal. All druggists. 10c, 25c, and 50c per bottle.

Call Received

By the Deaconess, Miss
Keturah Smith.

Tendered a Position in a
Training School at
Northfield, Mass.

Two New Cases of Diphtheria Re-
ported—Stone Thrown Through
a Window by Malicious
Youngster.

Many will regret to learn that Miss Keturah Smith, deaconess of the south Main Presbyterian church is soon to leave south Lima. Sometime since she received an invitation to become identified with the training school at Northfield, Mass., but did not accept intending to remain here to complete the work auspiciously started. The other day however, she was offered an advancement from the training school which she justified in accepting. She will leave shortly for Northfield. Sunday morning the deaconess will speak at the church. She labored efficiently during her brief stay here. Residents of south Lima generally regret her departure.

Two additional cases of diphtheria have developed since yesterday. The young daughter of William Baker, on Vine street, also Charles Taff, Baker's boy on Holly street.

While seated at supper last night, John Outman narrowly escaped being struck by a stone thrown maliciously

NOW is the time the
body needs a revitalizing
agent: when the nerves, the
blood, the stomach and
digestion need reinforcing.

NOW is the time you
need Hagee's Cordial of
Cod Liver Oil.

Don't shudder at the
thought of Cod Liver Oil
—that day is past. Hagee's
Cordial contains the
active principles only. The
grease is eliminated. The
fishy taste is replaced by
a pleasing, palatable fla-
vor. The stomach accepts
it and grows strong; the
blood absorbs it and grows
rich and red. The whole
system rejoices in the
effect of Hagee's Cordial.

Sold by all druggists. Prepared by

Woman's Life Saved.
A rather curious case came to our attention of a woman in Detroit whose life was saved "several times," so she says, by Athlo-phoros. Once is a good record, but "several times" makes her a warm advocate of Athlo-phoros whenever rheumatism is mentioned—you can write to her if you want to. Kate Nauman, 630 15th St., Detroit, Mich. She says Athlo-phoros is the best and only medicine that will cure rheumatism, "because it has cured me," and she says "the swelling and aching pain ceased within five minutes after the first dose." She further says, "the disease has no more dread for me as long as Athlo-phoros can be obtained." What it has done for her will do for anyone.

Big Camp Fire

Closes the First Day's
Reunion at Delphos.

History of Regiment's Or-
ganization and Services
is Interesting.

Known as an Adopted Regiment,
But Went Through All of the
Fearful Carnage of
the War.

The 81st Ohio Volunteer Infantry held its 16th annual reunion at Delphos, beginning yesterday at 2 o'clock, with an address of welcome delivered by Mayor Bliss, to which Comrade Frank Mattheis, of Lima, responded in a happy manner. There were several other short addresses, and music, but the real pleasure came in the evening when a big camp fire was held at the city hall and the surviving comrades once more went over the ground they had fought for.

The 81st has a unique history, being frequently referred to as an adopted child of the state and the Delphos Herald gives the following interesting facts connected with the regiment's organization:

In August of 1861 the 20th Ohio, after three months service, was mustered out, and General Fremont, then commanding in Missouri, undertook the task of creating the army to serve under him. Col. Thomas Morton, formerly of the 29th Ohio, then raised a regiment to be known as "Morton's Independent Rifle Regiment." One full company, that of Capt. Peter O'Kane, of Eaton, Ohio, sent to St. Louis for General Fremont's service, was taken possession of by Col. C. J. Wright and placed in his regiment.

The filling up of Morton's regiment was delayed and at that time state pride interfered, after Colonel Morton had taken five or six men from Ohio into the U. S. service beyond control of the state. The state desired to have credit for all men furnished and to number as many regiments as her neighbors, hence was not slow in accepting the "Independent regiment" with its unfiled numbers, which was offered after Capt. O'Kane's company was "kidnapped."

It was numbered the Eighty-First Ohio Infantry Volunteers, the officers already appointed to serve. Of the 81st Company A was organized at Lima, September 1862, by Capt. W. H. Hill; Company B at Lima, August 1861, by Capt. M. Armstrong; Company C at Greenfield, August 1861, by Capt. R. N. Adams; Company D at Upper Sandusky, August and September, 1861, by Capt. P. A. Tyler; Company E was not a minimum company until in August of 1862 when it was consolidated with Company H, another partial organization raised at Lima by Capt. C. M. Hughes; Company F was realized by a consolidation of its forces organized at Cincinnati and Buena Vista by Capt. Dadds, with Company G, by Capt. Kinsell, from Morrow county; Company G at Lima, October 1862, by Capt. Geo. W. Overmeyer; Company H in Adams and Scioto counties, August and September 1862, by Capt. W. C. Henry; Company I at Greenfield, August 1861, by Capt. Gibson; Company K at Galion, August 1862, by Capt. B. F. Mattheis.

The 81st participated in many battles, at Shiloh, Corinth, in the Atlanta campaign, in the march from Atlanta to the sea, battle of Oostenaulla and Rome Cross Roads, and many others. Of the 81st, 34 men were killed in action, 24 died of wounds, 121 died of disease, total deaths 180; 136 discharged for disability and total loss by death and discharge 316. On July 13, 1865, the regiment was mustered out. The men making up this body of fighters experienced many hardships from the time of their first scouting over the prairies of Missouri, through the bloody baptism at Shiloh, the march into Mississippi, participation in the battles of Iuka and Corinth, garrison duty at the latter place, march into northern Alabama, brief stay at Pochontas, march to Pulaski and duty there, its deeds and privations in the historic campaign, march to Rome, journey to the sea, and finally its march from Savannah to Raleigh, Washington, Louisville and Camp Denison, from whence each man went his way home, a citizen once more.

Up to yesterday evening the follow-

ing had registered, but there were more expected:

Wm. Lochhead, A. Delphos; Jas. May, A. Delphos; John F. Bogart, G. Columbus Grove; John Fullerton, E. Cranberry; David McCallister, G. Colteah, Tenn.; W. A. Brown, F. Delphos; John Eisenbise, A. DELPHOS

Fireman Will Recover from Injuries.

Was Frightfully Scalded Months Ago

But After a Long and Tedious Spell He is Now Getting Back to Health and Vigor Again.

Our readers will recall the collision on the Clover Leaf railroad near Marion, Ind., as reported last March, says the St. Marys Graphic, wherein Rufus Jauman, of Delphos, Ohio, and an engineer on one of the ill-fated trains, was so fearfully burned and scalded that for many weary months his life was despaired of. Mr. Jauman, to the surprise of both friends and surgeons, finally recovered so that he could be removed to his home at Delphos, since which time he has been gradually but slowly improving; he will survive his awful injuries, although somewhat disfigured because of them. During the past few days Mr. Jauman has been the guest of his brother, Mr. Joseph Jauman, of this city. His recovery from his extensive injuries is all but miraculous.

General Notes.

Louis R. Buckwalter, one of the oldest men in the employ of the Pennsylvania railroad, goes on the retired list today, in conformity to the rules of the company, having reached his 71st year. He began railroad life at the age of 16, as a helper in the Baldwin locomotive works and continued in the mechanical line until he attained position of official prominence.

Mr. Charles Polser, who has been working for the Natchez Oil Co. at Beaumont, Texas, has returned to this city to accept a position as a machinist at the Lima Locomotive & Machine Co.'s works.

Pittsburg engineer J. W. Bowden called at the road foreman's office yesterday to report progress. Mr. Bowden was injured at Lima some time ago and was out on the street yesterday for the first time since the accident.

C. H. & D. Notes.

Chief dispatcher Louy, who has been off duty for a long time, building himself up, will return to his desk the first of the month.

Switchman B. E. Jeffries, of the C. H. & D., has moved into his new residence at Broadway and Ashton avenue.

Engineer L. P. Tolby, of the C. H. & D., who with his family has spent the past five months in South Dakota, has returned. Mrs. Tolby's health being fully recovered. Mr. Tolby reported for duty today.

MILLS

Will be Rebuilt at
Bluffton.

Loss to the Company Will
be \$15,000.

Insurance to the Amount of \$10,000
Being All That was Carried—
The Robbers Overlooked a
Better Chance.

The Bluffton Roller Mills, which
were destroyed by fire as a result of
the blowing up of the safe by burglars,
are to be rebuilt with as little delay as
possible. The mill, as stated at the
time, was totally destroyed, and the
actual loss to the owners was \$15,000,
there being but \$10,000 insurance on
the property which was valued at
\$25,000.

As to the men who did the deed, no
definite clue has been obtained, al-
though the officers are working on the
case and hope to strike the right trail
of two suspicious characters who were
seen carrying a small sack supposed
to contain tools. They went in the di-
rection of Findlay and the police there
are also interested in running the de-
serters to earth.

The safe when taken from the de-
pot, was found to be shattered like
a pine box, but the strong box con-
taining \$50 was untouched, showing
that the robbers had failed to get a
cent of coin for their trouble and
risk. The operator, who was spoken
of as having been shot at, had over
\$200 in the depot safe, and if the
burglars had made a raid there, they
would have been amply rewarded with-
out having to go to the trouble of
using explosives.

At the time of the blowing up of the
mill, a L. E. & W. freight train was
passing and the rear brakeman was
standing on the crossing near by wait-
ing for the caboose to reach him.

Just as he swung aboard the explo-
sion occurred and his first thought
was that the boiler had given way.
He leaped inside the caboose to es-
cape the flying debris, and as the
train gathered speed he looked back
and saw the mill burning. None of
the crew thought of safe robbers
having anything to do with it.

TUESDAY

The Day Set for the Matinee
Races.

There Will be a Good Program and
Made Up of the Very Best
Talent.

It has been definitely stated that the
Matinee Driving club will give a race
meeting on Tuesday afternoon of next
week and the public will welcome the
announcement, as there is an evident
desire on the part of all who have a
drop of sporting blood in their veins
to witness another series of good
races.

Lima has a reputation for posses-
sing a nice big string of the best
harness performers in this section of
the state and as they will all be home
for the season by next Tuesday there
is sure to be some spirited contests
in the three and possibly four events.
So far as now known, the program
will provide for a 2:30 trot, a 2:25
pace, a 2:00 trot and perhaps a free-
for-all trot and pace. There has been
a willingness displayed on the part of
owners and trainers to bring out the
horses and there is a positive assur-
ance that the event will repay all
who attend.

Townsend wholesales oysters.

J. H. Van Wormer, one of the most
prominent oil producers who has op-
erated in the St. Marys oil field during
the past few years, was struck and in-
stantly killed by an engine in the
yards of the L. E. & W. railroad at St.
Marys yesterday afternoon.

Mr. Van Wormer had started with
a horse and buggy to go to some of his
territory south of St. Marys and was
crossing the railroad tracks at a
street crossing east of the L. E. & W.
depot when his rig was struck by the
engine of the accommodation off of
the Minster branch of the road. The
engine was running at a rapid rate of
speed and both Mr. Van Wormer and
his horse were instantly killed and the
buggy completely wrecked.

The unfortunate man was over 60
years of age and being quite deaf, was
unable to hear the noise made by the
approaching engine and cut of cars.
The engineer stopped his engine as
soon as possible, but too late to avert
the tragedy and when the trainmen
reached the unfortunate man, they
found him dead. The remains were
removed to an undertaking establish-
ment and relatives of the deceased in
this city and at Bradford, Pa., were
notified of his death.

Mr. Van Wormer's home was in
Bradford, Pa., but he had spent much
of his time during the past ten years,
at St. Marys. He is survived by his
wife, one son and two daughters, and
one of the latter was on her way from
Bradford to visit him at St. Marys,
when the fatal accident occurred.
Mrs. E. E. Linn, of 133 north Mc-
Donald street, this city, is a sister of
Mrs. Van Wormer and the remains of
the deceased were brought to this
city over the L. E. & W. this afternoon
and were taken to the Linn residence.

On arrival this afternoon the re-
mains were taken to the residence of
E. E. Linn, at 133 north McDonald
street. Short funeral services will be
held tomorrow afternoon at 2 o'clock
from the Linn residence, Rev. G. F.
G. Hoyt, of Christ Episcopal church,
officiating. The remains will be placed
in the vault at Woodlawn cemetery.

Triennial Convention of the Episcopal Church Adjourns Since Die.

THE CLOSING SESSIONS BUSY ONES

Huntington Amendment Virtually Relegated to the Next Conference—Concluding Exercises and Other Features.

San Francisco, Oct. 18.—The triennial convention of the Episcopal church of America has adjourned since die. The next convention is to be held in Boston in 1904. The closing day was a busy one in both houses, most of the time, however, being taken up in the discussion of matters which were not definitely decided. It was agreed to make Honolulu and Cuba missionary districts, and to create the missionary district of Salina out of the diocese of Kansas. The houses failed to concur, however, in the proposed setting apart of a portion of the diocese of Springfield, Ill., as a missionary district. The election of Rev. Cameron Mann as missionary bishop of North Dakota was concurred in by the house of bishops. Both houses agreed to the report of the committee on the proposed Huntington amendment to article 10 of the constitution. This action virtually relegates the matter to the next general convention.

The closing exercises of the convention were impressive. The bishops, attired in their robes of office, and preceded by Dr. Samuel Hart, secretary of the house of bishops, and Rev. C. L. Hutchins, secretary of the house of deputies, marched in procession into the church. As they walked up the main aisle the vested choir of Trinity and the congregation joined in the singing. The bishops were seated on the platform inside the chancel, and prayer service was conducted by President Lindsay of the house of deputies. Bishop Doane of Albany then called for a contribution to be applied towards reducing the deficit in the general missionary fund. The amount given was not announced, but was very liberal. The triennial pastoral letter was read by Bishop Dudley of Kentucky.

Bloody Affray.
Welsh, W. Va., Oct. 18.—In a shooting affray in the Palace hotel cafe here Robert Hufford, a merchant, and Dr. C. R. McDaniel were fatally wounded. John Waldron, deputy sheriff, was also shot, though his wounds are not mortal. Hufford was taking a lunch in the hotel cafe when a crowd of strange men entered, apparently intoxicated. They made several remarks which Hufford took as insults, and he hurled a heavy glass at one of them. A fist fight followed. Deputy Sheriff Waldron and Dr. McDaniel tried to separate the men, when Hufford pulled a pistol and turned on the sheriff. Waldron also drew his revolver and shots were rapidly exchanged. Dr. McDaniel, a friend of both men, begged them not to fight. Accidentally getting in the line of fire, he was pierced through and through with a 38-caliber bullet. Hufford was next to fall. He was shot three times, the last bullet penetrating his left breast.

Wrecked Vessels.
Seattle, Wash., Oct. 18.—The steamship St. Paul arrived here from Nome. The vessel had more than \$1,500,000 in treasure. The Caronne had not put in an appearance at Nome when the St. Paul left, Sept. 6, and anxiety is felt for her safety. The steamer Centennial went on the beach near Teller. No lives were lost. Ben Brook and party left Nome for Kuskoowim in July of last year. Since that time the men were only seen once, and that was by two fishermen who passed them near Nome. There were five men in the party. Wreckage of their ship has been discovered by prospectors at Kuskoowim bay, and much anxiety is felt as to their fate.

West Virginia miners.
Indianapolis, Oct. 18.—President Mitchell and Secretary Wilson of the United Mine Workers of America will leave for Huntington, W. Va., to attend a convention of miners on Oct. 21. A call has been issued to the organized and unorganized miners in both West Virginia and Virginia to send delegates. This will be the first convention held by the miners of these states, and it is regarded as an important step by the officials of the organization, who are now making a supreme effort to unionize the men there.

Diphtheria Prevalent.
New Albany, Ind., Oct. 18.—The board of health of New Albany, acting with the board of school trustees, ordered the schools of this city, including parochial schools, closed on account of the prevalence of diphtheria among the children. In addition to closing the schools the board of health ordered all children of school age and under to remain at home.

Half Mile in a Minute.
Memphis, Oct. 18.—F. G. Jones drove the champion wagon racer, Little Boy, half a mile in one minute flat on the trotting track. This equals the world's record. William Mac was given a mile work-out race in 2:05 1/2. The Memphis meeting begins Monday next and will continue throughout the week.

Double Crime.
Charleston, S. C., Oct. 18.—C. H. Mappus, a German, was murdered at his store, seven miles from here, and near several negro villages. The store had been robbed of the money it contained.

GETTING The Preliminaries Well in Hand.

Committees Hustling for the State Meeting

Of the Society of Charities and Corrections Which Convenes in Lima on Tuesday, October Twenty-ninth.

The Lutheran Synod, perhaps the last that Lima will ever have the honor of entertaining, has passed into history, but the effect of the presence of such a distinguished body of men will be lasting, and there is also the pleasure of knowing that Lima added to her reputation as a city whose hospitality has frequently been tested and never found wanting.

And now before that same hospitality grows cold the good people of the city will be called upon to extend a warm welcome to the delegates who have selected Lima for the place of holding the eleventh state conference of charities and corrections. The date as has been previously announced, is on the 29th of October, but the session will last over the 31st, making three days that are to be devoted to discussions having for their basis the cause of humanity.

The committees were appointed some time ago, and all have their work well in hand. At present the finance committee composed of Dr. Wm. Melville, S. A. Baxter, Wm. F. Numan, John Attleberger, Albert Koch, Gen. L. F. Ellis, F. E. Harman and Joseph Goldsmith are endeavoring to collect a fund of \$200 which will be sufficient to cover all expenses, and this amount should be easily raised among the business men.

It is expected that between 250 and 300 delegates from all parts of the state will be present and among them the strongest advocates of laws that will make fewer criminals and give the child offender an opportunity to reform rather than to be further steeped in crime by a compulsory association with hold and hopeless crooks. The suggestions and discussions are sure to prove interesting and the sessions, which are to be held in the Y. M. C. A. during the day and at the Congregational church at night, are open to everybody.

SPIRIT Of Wild West Took Possession of Him.

A Lad After Mark Twain's Own Heart Creates Excitement at Middle Point.

William Thomas, of Dupont, who had the merry-go-round here during the fair, is now at Middle Point, and Tuesday evening the wooden horses were bobbing around the circle in their usual manner, accompanied by wheezy strains of music from a grand organ, when an idea to get into devilment found birth in the mind of a boy by the name of Seitz.

He secured a rope, fastened it into a lariat, fastened one end to a gup post of the tent and then prepared to perform a wild west feat, that of roping a fiery steed. The swing was well crowded with children and was going at a merry clip when the Seitz lad threw the lariat. The coil settled over the head of one of the wooden horses, the slack was suddenly taken up, there was a jerk and a jar and then a commotion. Several of the children were jerked off the horses they were riding and one little fellow fell between two of the riding places and was somewhat bruised. The force of the sudden jerk yanked the head off the horse.

A Bad Disease

There is a certain disease that has come down to us through many centuries and is older than history itself, yet very few outside of those who have learned from bitter experience know anything of its nature or characteristics. At first a little ulcer or sore appears, then glands of the neck or groin swell, plumes break out on the breast, haem or some other part of the body and fill with yellow pus-like matter; the mouth and throat become sore and the tongue is at all times badly coated. Headaches are frequent, and muscles and joints throb and hurt, especially during damp, rainy weather. These are some of the symptoms of that most loathsome of all diseases, Contagious Blood Poison.

This strange poison does not affect all alike; some are literally eaten up with it within a short time after being inoculated, while others show no slight evidence of any taint for a long time after exposure, but its tendency in every case is to complete destruction of the physical system, sooner or later.

S. S. S. is a safe and infallible cure for this bad disease—the only antidote for this specific poison. It cures Contagious Blood Poison in every form and stage thoroughly and permanently. S. S. S. contains no Mercury, Potash or other harmful minerals, but is strictly and entirely a vegetable remedy, and we offer \$1,000.00 reward for proof that it is not.

OUR MEDICAL which was established years ago, is doing a noble work in relieving suffering. Give our physicians a short history of your case and get their advice. This will cost you nothing, and what you say will be held in strictest confidence. With their help and a copy of our book on Contagious Blood Poison, you can manage your own case and cure yourself at home.

A Typical South African Store.

O. R. Lawson, of Bay Villa, Sunday
River, Cape Colony, conducts a store
typical of South Africa, at which can
be purchased anything from the pro-
ducts of the nearest railway station at
about twenty-five miles from the near-
est town. Mr. Larson says: "I am
favored with the custom of farmers
within a radius of thirty miles."

many of whom I have supplied Chamberlain's remedies. All testify their value in a household where doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by Wm. M. Melville, old post office corner.

A Fiendish Attack.
An attack was lately made on C. J. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes "I feel like a new man." This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 60c at H. J. Vorthkamp's drug store.

How it Happened.

GASTON

Devereux Pleaded Guilty and Got a Two Year's Sentence.

A Session of Criminal Court in Which Several Prisoners are Disposed of.—Only One Saloon Keeper Pleads Guilty.

Judge Cunningham paid his attention to matters criminal today and disposed of several of the jail birds, who have been waiting for their fate to be decided. Perhaps the most interesting of the prisoners to be dealt with, was Gaston Devereux, whose history, since his first appearance in Lima, is so well known as to hardly warrant a repetition of the incidents in which he figured so prominently.

After having broken into prominence as a man without a memory, and then endeavoring to aid the prisoners in the jail to make their escape, he was caught dead to rights and has languished several months waiting for the grand jury to deal with him.

An indictment was returned and when arraigned he pleaded not guilty, but after due consideration, and knowing that the court would show but little mercy if he was convicted, after the expense and trouble of a trial, he had a sudden change of mind and today, confessed his part in the intended jail delivery. The result was a sentence of two years in the penitentiary and he will perhaps in that time come to a realization as to just who he is and "where he is at."

James Dawson, who was caught trying to burglarize the Fidelity coal company's office, got a sentence of three years and J. R. Newcomb, the self confessed horse thief, was given two years.

John Warden, arrested this week

at Cleveland by Sheriff Bogart, on the charge of larceny, entered a plea of not guilty and Russell Armstrong has been retained to defend him.

The saloon keepers, who were indicted for selling liquor on Sunday, were also up before the court, but the only one who pleaded guilty was Joseph Miller. Sentence in his case was reserved.

Charles King, Frank Phinney, Baker & Guncheon and Grant Stevens pleaded not guilty to the same charge and will stand trial. If convicted the cases will likely be carried to the higher courts and indefinitely prolonged.

THE IDLER.

Buffalo Rehearsal.

The Buffalos will meet in their hall this evening to rehearse for the first time the songs and sketches to be used in the minstrel which will be given Friday evening, November 1. A full attendance of all who are to assist is earnestly requested by the committee entrusted with the success of the entertainment.

Practicing the Opera.

The first rehearsal of Princess Bonnie, the operetta to be given for the benefit of the city hospital during Thanksgiving week, under the direction of Prof. Clark and Lull, was held last night. The score has arrived and is very pretty, all that is needed being plenty of practice to make the event one of the big successes in Lima musical circles.

CUPID'S

Work Given the Crown-ing Touch

At the Home of Mrs. Frances Gibbs.

The Bride was Her Daughter, Miss Anna M. and the Groom Elmer E. Hay of This City.

Last evening about fifty relatives and near and dear friends witnessed a charming home wedding at the residence of Mrs. Frances Gibbs, 921 west North street, the bride being her daughter, Anna M. Gibbs, and the man of her choice, Mr. Elmer E. Hay. The rooms were prettily decorated with vines and autumn flowers, and just before the hour of eight, the bride's pastor, Rev. M. Bossart, took his position facing the guests and the young couple, and read the impressive marriage service of the Lutheran church, uniting their lives in holy wedlock. The bride wore a becoming gown of white lawn, trimmed with numerous rows of white satin baby ribbon on the blouse and bodice; the bouquet was composed of bride's roses, completing the toilette. Congratulations and good wishes were then showered upon the newly made man and wife and then followed a supper of appetizing dishes. The young couple, last night, went to their home, which they had in readiness, on west North street, where they will welcome their friends in the near future.

The bride is well known as a good worker in her church, where she has many warm friends. The groom has also, hosts of friends in Lima and vicinity, where he was reared; at present he is a traveling salesman for a Richmond, Ind., firm. Their friends wish them a prosperous and happy journey through life.

TOKEN

Of the Esteem and Gratitude

Is Presented

To E. R. Gallagher by Fellow Workmen

In Recognition of His Thirty Years of Faithful Service.

Presentation Made Last Evening by Job Taylor on Behalf of the American Strawboard Co.'s Employees.

Last evening, Mr. E. R. Gallagher received a call to be at the offices of the American Straw Board company, where until two weeks ago he was superintendent of the mills. When the whistle called the tollers of the day to their homes, and the night crew to duty to relieve them, the workmen gathered in the warehouse, and Mr. Gallagher was brought into their midst. Mr. Job Taylor of the office force, called him forth, and with appropriate words, presented him with a handsomely marked gold watch and chain. Mr. Taylor said in part:

"It has been the custom of the world for generations to make gifts, and this practice no doubt originated in the early ages of the race when man was a dweller of the cave, and one tribe gained the supremacy over the other. Then the conquered band would propitiate the ruler by tribute and gifts. But today, in presenting you this memento, no idea of propitiation gives this occasion coloring. It comes out of a free heart from those men around you who have toiled with you for several decades.

"Your history in a way is the history of this mill. For thirty long years you have toiled and labored upwards. When a mere stripling, with all the enthusiasm of youth, you stepped into the cutter, and piled the paper to the singing of the machines. On you advanced through back-tender, machine tender, until finally you reached the superintendency. In this capacity, where your sphere of usefulness was enlarged, your life grew into the life of your workmen. The time has now come when you see fit to sever your connection with this company. It is with sorrow that the workmen see you go. There is always a certain amount of sadness connected with a change. We must die to the old environment and be born to the new. Thus as you leave the old and take on the new, it is fittingly appropriate that this present should be given, to show the full appreciation of your thirty years of faithful service.

"In the name of the employees of the American Straw Board Company, it gives me great pleasure to present to you this watch. You will notice engraved on the back, your initials, E. R. G., which to me seems expressive to say, stand for esteem, regard, and gratitude. Esteem for what you are, regard for what you do, and gratitude for what you have been. These are explanatory of your relationship among your fellow workmen. When in after years you sit down by your own fireside, and this watch ticks off the fleeting hours, may it call to mind the pleasant memories of former days and the good will of your fellow helpers."

Mr. Gallagher was too full to say much, and with a heart overflowing, he said: "I am no orator, boys, but I thank you for this deep expression of gratitude."
